SUMMARY

A highly motivated Informatics graduate from Muhammadiyah University of Surabaya with strong expertise in Laravel, Flask, Django for backend development, as well as Blade Templating, Tailwind CSS, and Bootstrap 5 for frontend development. Skilled in building responsive, efficient, and secure web applications with clean, maintainable code.

PROFESSIONAL EXPERIENCES

Linuxhackingid Community

Freelance Programmer   *March 16, 2024 – March 25, 2025*

- Developed **frontend interface** for a vulnerability scanner using **React.js + TailwindCSS**, optimizing UX for security analysts.
- Engineered a **Python-based vulnerability scanner** with custom scanning algorithms, improving threat detection efficiency.

PT.Dimensi Citra Semesta

Web Development Intern   *FEBRUARY 26, 2023 – June 26, 2023*

- Built a **Laravel-based attendance system** with real-time GPS tracking, reducing manual entry errors by 30%. *(Specify if Laravel was used)*
- Integrated **KPI analytics dashboards** (MySQL + Chart.js) to visualize employee performance metrics.

Department of Informatics, Muhammadiyah University of Surabaya

TEACHING ASSISTANT   *MARCH 1, 2022 – APRIL 1, 2022*

- Assisted in teaching fundamental programming concepts (Python, Laravel 9) to first-year students.
- Conducted lab sessions, debugged student code, and provided one-on-one mentorship to improve learning outcomes.

HIMATIFA

Technology Division Head   *FEBRUARY 20, 2021 – APRIL 25, 2021*

- Spearheaded development of a **Flutter attendance app**, cutting tracking time by 40%.
- Led a 5-member dev team using **Agile methodologies**, delivering 3 projects on schedule.

SKILLS

- **Languages**: PHP, Python, JavaScript, Mysql
- **Backend**: Laravel, Flask, Django
- **Frontend**: Jinja Templating, Blade Templating, Tailwind CSS, Bootstrap 5
- **Soft Skills**: Problem-Solving, Agile Team Collaboration

EDUCATION

Muhammadiyah University of Surabaya

Bachelor's Degree in Informatics (GPA 3.30 / 4.00)   *2020 – 2024*

- *Relevant Coursework: Web Development, Database Systems, Algorithms*
